STICO - - MODULE 4 SUPPORT ACTIVITIES

Support Activities:

1, Ladder all 4 sides of the building for emergency egress. Consider what level to ladder and appropriate location for placement of ladders.

2, Provide scene lighting outside for emergency scene operations. Provide interior lighting for rescue and hose line crews.

3, Turn off electric and gas (natural gas) utilities to the building.

For the activity:

A. What tools and equipment would you use and where would you place it?

B. What other tactical assignments or activities would you need to coordinate with?

C. What specific safety concerns do you have? How would you manage the risk?
