

## The Dumpster Fire

### Discussion

What levels of protective clothing are appropriate for dumpster fires?

What hazards could be present inside the dumpster?

Where should apparatus be positioned for fire attack at a dumpster fire?

### Points to Consider

What alternatives to traditional trash line attack on dumpster fires is available?

What discharge pressure should the trash line be operated at?

What procedures should you take if you arrive and find that the dumpster has an exposed building?

What procedures do you follow when the dumpster needs to be overhauled?
